# Kofi Adow

Seattle Community Director Candidate

Senior Consultant at the Plaster Group

“ I want to give back to the PNW change management community by applying my experience, resources, skills, and education. I’ve had the privilege of interacting with several leaders of companies (potential sponsors) in our region and many on the fence about the bottom-line impact of change management. I am optimistic that we can make a difference for our members (current and future) through strong advocacy of change management’s value proposition with regular, relevant, and target-marketed educational programming.”
